Contents

Volume 259 (1991)

Research Papers

Sulfhydryl compounds inhibit the cyto- and geno-toxicity of *o*-phenylphenol metabolites in CHO-K1 cells
S. Tayama and Y. Nakagawa (Japan) 1

Chromosomal aberrations in tuberculosis patients before and after treatment with short-term chemotherapy
V.V.N. Gopal Rao, E.V. Venkatarama Gupta and I.M. Thomas (India) 13

Acrylamide is genotoxic to the somatic and germ cells of *Drosophila melanogaster*
N.K. Tripathy, K.K. Patnaik and M.J. Nabi (India) 21

Further studies on the comutagenic activity of cigarette smoke condensate
R. Crebelli, L. Conti, S. Fuselli, P. Leopardi, A. Zijno and A. Carere (Italy) 29

Forward mutation of *S. typhimurium* by smokeless tobacco extracts
L. Shirnamé-Moré (U.S.A.) 37

Studies on three structurally related phenylenediamines with the mouse micronucleus assay system
L. Soler-Niedziela, X. Shi, J. Nath and T. Ong (U.S.A.) 43

Liver, lung and kidney homogenates used as an activation system in mutagenicity studies of airborne particles and of expectorate and urine samples from exposed workers in a coke plant
Å. Krøkje, R. Schmid and K. Zahlsen (Norway) 49

Mitosis-arresting effects of cigarette smoke condensate on human lymphoid cell lines
T.C. Hsu, L.M. Cherry, C. Bucana, L.R. Shirley and C.G. Gairola (U.S.A.) 67

Tea tannin components modify the induction of sister-chromatid exchanges and chromosome aberrations in mutagen-treated cultured mammalian cells and mice
H. Imanishi, Y.F. Sasaki, T. Ohta, M. Watanabe, T. Kato and Y. Shirasu (Japan) 79

A comparison of the relative activities of 8 radiosensitizers in the SOS chromotest
D.A. Widdick and D.I. Edwards (Great Britain) 89

Mutagenicity of 30 chemicals in *Salmonella typhimurium* strains possessing different nitroreductase or *O*-acetyltransferase activities
P. Einistö, M. Watanabe, M. Ishidate Jr. and T. Nohmi (Finland, Japan) 95

Clastogenicity of 1-nitropyrene, dinitropyrenes, fluorene and mononitrofluorenes in cultured Chinese hamster cells
A. Matsuoka, T. Sofuni, N. Miyata and M. Ishidate Jr. (Japan) 103

Genotoxicity of 1-nitronaphthalene in Chinese hamster V79 cells
B.G. Boyes, C.G. Rogers and R. Stapley (Canada) 111

Series: 'Current Issues in Mutagenesis and Carcinogenesis'

No. 23. Letter to the Editor: Micronucleus assay protocols
J.T. MacGregor (U.S.A.) 123

Research Papers

Evaluation of mutagenic effect of the antihypertensive drug methyldopa (Aldomet) on mammalian systems in vivo and in vitro and on *Allium cepa*
C.K. Grisolia and C.S. Takahashi (Brazil) 127

Establishment of dose–response relationships between doses of Cs-137 γ-rays and frequencies of micronuclei in human peripheral blood lymphocytes
A.N. Balasem and A.S.K. Ali (Iraq) 133

Evaluation of the mutagenic potential of the antichagasic drug Rochagan in healthy and chagasic rodents
S.C. Souza, C.S. Takahashi and J.S. da Silva (Brazil) 139

Aneuploidy in Drosophila, II. Further validation of the FIX and ZESTE genetic test systems employing female *Drosophila melanogaster*
C. Osgood, S. Zimmering and J.M. Mason (U.S.A.) 147

Aneuploidy in Drosophila, IV. Inhalation studies on the induction of aneuploidy by nitriles
C. Osgood, M. Bloomfield and S. Zimmering (U.S.A) 165

Mutagenic activity of certain synthetic steroids: structural requirement for the mutagenic activity in Salmonella and *E. coli*
S. Islam, S. Shafiullah and M. Ahmad (India) 177

Increased frequency of micronuclei in B and T8 lymphocytes from smokers
M.L. Larramendy and S. Knuutila (Finland, Argentina) 189
Leather tanning workers: chromosomal aberrations in peripheral lymphocytes and micronuclei in exfoliated cells in urine
M. González Cid, D. Loria, M. Vilensky, J.L. Miotti and E. Matos (Argentina) 197

Special Issue

Potential Carcinogens in the Diet

edited by H.-U. Aeschbacher

Editorial
H.-U. Aeschbacher (Switzerland) 203

Occurrence, identification, and bacterial mutagenicity of heterocyclic amines in cooked food
J.S. Felton and M.G. Knize (U.S.A.) 205
Formation of heterocyclic amines using model systems
M. Jägerstad, K. Skog, S. Grivas and K. Olsson (Sweden) 219
Mammalian cell mutagenicity and metabolism of heterocyclic aromatic amines
H.-U. Aeschbacher and R.J. Turesky (Switzerland) 235
The formation and occurrence of polynuclear aromatic hydrocarbons associated with food
W. Lijinsky (U.S.A.) 251
Mechanism of action of food-associated polycyclic aromatic hydrocarbon carcinogens
A. Dipple and C.A.H. Bigger (U.S.A.) 263
Carcinogenic *N*-nitrosamines in the diet: occurrence, formation, mechanisms and carcinogenic potential
A.R. Tricker and R. Preussmann (F.R.G.) 277
Mycotoxins: food contamination, mechanism, carcinogenic potential and preventive measures
F.S. Chu (U.S.A.) 291
The beneficial and hazardous effects of simple phenolic compounds
H.F. Stich (Canada) 307
Ethyl carbamate: analytical methodology, occurrence, formation, biological activity and risk assessment
B. Zimmerli and J. Schlatter (Switzerland) 325
Dietary modulation of experimental neoplastic development: role of fat and fiber content and calorie intake
M.B. Roberfroid (Belgium) 351
Aldehydes: occurrence, carcinogenic potential, mechanism of action and risk assessment
V.J. Feron, H.P. Til, F. De Vrijer, R.A. Woutersen, F.R. Cassee and P.J. Van Bladeren (The Netherlands) 363
Laboratory and epidemiologic studies of fecapentaenes
A.C. Povey, M. Schiffman, B.G. Taffe and C.C. Harris (Great Britain, U.S.A.) 387
Carcinogenicities of heterocyclic amines in cooked food
H. Ohgaki, S. Takayama and T. Sugimura (Japan) 399
